EVENT DESCRIPTIONS

Draw-Your-Partner (DYP): This is a doubles event. Teams are randomly drawn (by a computer). Therefore you might get lucky and get drawn with one of the world's best players. Equally you might get drawn with your mate. These events are often great fun as you get the chance to play with someone you've never played with before (and probably won't again!).

National League: If your club wants to arrange a National League fixture against another team, feel free to play this instead of the DYP. We will reserve a table for you.

Open Singles: A singles event. Anyone can enter. Intense competition, with players fighting it out to become the Darlington Open III Champion.

Open Doubles: A doubles event. Anyone can enter. Intense competition, with doubles teams fighting it out to become the Darlington Open III Champions.

Senior Singles/Doubles: Normal singles/doubles events, but can only be entered by players who qualify as Senior under the ITSF system. Senior players must be 50 years old or older.

Beginner Singles/Doubles: Normal singles/doubles events, but can only be entered by players ranked Beginner or who haven't been to a tournament before.

Pro Doubles/Singles: Normal singles/doubles events for everyone besides Pro-Master ranked players.

Semi-Pro Doubles/Singles: Normal singles/doubles events for everyone besides Pro-Master and Pro ranked players.

Amateur Doubles/Singles: Normal singles/doubles events for Amateur, Beginner and new players only.

Open Mixed: A woman and a man in a doubles team.

2-Ball Rollerball: One of the highlights of the tournament. You put two balls in and smash them around. If you score both goals, you get two points. If you score one goal each, no-one gets any points. If one team scores a point, and then stops the ball dead, they are entitled to claim one point - at which point another ball is added to the game and you start thrashing balls around again. There are a few other interesting rules and an amazing variety of tactics - huge fun to play.

Women's Singles/Doubles: Normal singles/doubles events, but can only be entered by players who are registered as women under the ITSF system.

Junior Singles/Doubles: Normal singles/doubles events, but can only be entered by players who qualify as Junior under the ITSF system. Junior players must be aged 18 years or under.
